WASHINGTON AFFAIRS

Washing it for more favorable weather would be out of the question.

If it was considered that there was darked constructed that there was darked the case in a race across the cocan, and that would mean the provision of vessels that would be shie to meet those conditions without loss of the portansiant reports and that would be shie to meet those conditions without loss of the portansiant reports and the would be shie to meet those conditions without loss of the portansiant reports and the would be shie to meet those conditions without loss of the portansiant reports and the would be shie to meet those conditions without loss of the portansiant reports and the would be shie to meet those conditions without loss of the portansiant reports and the would be shie to meet those are great and the need for it and however much the lower shouls of content may color of the personal structure of the portansiant without the portansiant reports and the would be devicedly limited.

However great is the need for it and however much the lower shouls of the department affected. Without any question there is need for its and however much the lower shouls of the department and the conditions without the provided of the personal structure of the provided of the personal structure of the pers (Special to The Bulletin.) extravagance, but there are certain well stablished branches of the government which cannot be wisely ignored or deprived of means of sustenance.

Just at the present time indications point strongly to the fact that it is the purpose of the house to reduce the appropriation for the consular service so that the quarter of a million for post allowances will be eliminated. Even though there is a possibility that this will be replaced by the senate it displays a disposition to cripple the consular service and make it more difficult to get efficient men for the posts.

The house appears to be desirous of saving money and for that it deserves commendating but in the pursuit of that policy it should be consistent. Instead of taking funds away from a branch of the government service that is needed the curtailment should come fhere there will be no detrimental effects to the country, it cannot be overlooked that while the bouse is willing to save this quarter of a million it is eager to spend a third of a million for free seeds, even increasing of the interprise on them at the head of the eligible list, are cording to the interpretation on the origing to the interpretation on the cligible list, are cording to the interpretation on the origing to the interpretation on the origing to the interpretation on the eligible list, are cording to the interpretation on the origing to the interpretation on the eligible list, are cording to the interpretation on the origing to the interpretation on the mat the head of the eligible list, are cording to the interpretation on the origing to the interpretation on the origing to the interpretation or the mat the head of the sniy'l int which Mr. Burleson has tangled

The estimates of unemployed

The estimates of unemployed persons in the United States, as based on returns made by the department of labor show that New England has been very hard hit. The tetal decrease of employed persons in the United States showed a tremendous decrease, the figures pointing to a reduction of not less than 3,331.352 since January 1st, 1829.

A summary of the New England situation shows that the metal, machinery and specialty industries are still busy, and that around Attleboro, Mass, and other places where a jewelry trade is uppermost, the production is on a fifty percent, basis with prospect of increase Cities like Manchester, N. H., with Lowell, Lawrence, Fall River, and New Bedfard, show the cotton industry to be promising. show the cotton industry to be promising although at this moment they are slow. The building situation in New England is summarized as being very slow, as it is elsewhere. In the lumber industry there is said to be little demand for boxes or shooks but reports from wood pulp and paper industries of New England show them to be very busy and hiring help. The

continuance of the services of chaplains." England and her propagandists.

The one million dellar appropriation

The one million dellar appropriation

Norwich, Jan. 31, 1921." The one million dotter appropriation for extension of the Weaks forestry bill which affects the watersheds of all New England rivers had a close call when a separate vote on that amendment was demanded in the house by opnonents of the measure. The vote stood 154 for the measure and 145 against it—a close margin of only 3 votes. During the debate Blanton of Texas, who is a actorisus objector to measure which do not especially concern the section of the country which he represents grew bitter when he faced defeat on the forestry bill and referred to the magnificently wooded mountains of the Appalachian and White Mountains range affected by the bill as "nothing but worthless mountain tops." Senator Keyes of New Hampshira will speasor the measure in the senate agricultural committee of which he is member. Hearings on the ten million deliar appropriation for a greater continuance of the work have been zoing on before the house committee, but will not come before congress till the spring season.

Senator Branderee said this week that if the patent bill, which asks for increase of aniaries in the office, in order to secure better service and retain experts in office, were the only mutter in the office, were the only mutter in the office, in order to secure better service and retain experts in office, were the only mutter in the office, were the only mutter in the office, in order to secure better service and retain experts in office, were the only mutter in was not the richest land formerly been poor Irish boy. The one million dellar appropriation for extension of the Weeks forestry bil

commission will affect it, is a matter of doubt.

Reaster McLean spake and voted against prize fixing as endorsed in the so-called packers' bill which recently passed the senate. Mr. McLean said in part: "In my mind this bill crosses the dead line and once you cross it you can never return. Price fixing has been tried over and over again and allowed etc. in-law and was seen by him broth-

Suggests Changes. Mr. Editor: Raving read in The Bulletin the political opinions of several indi-viduals, I have decided American historiand reports much unemployment in that the situation grows much more serious which require strict in protection is to a transfer and those who are named to see that the law is enforced. QUICK RELIEF FROM

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and toroid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No printing is the "beautiful".

No griping is the "keynote" of these little sugar-coated, olive-colored tub-lets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"— bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant re-sults from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30s.

Unless you see the name "Bayer" on tablets, you are not getting genuine Aspirin prescribed by physicians for 21 years, and proved safe by millions.-Say "Bayer"!

SAFETY FIRST! Accept only an "unbroken package" of genuine "Bayer Tablets of Aspirin," which contains proper directions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Strictly American!

Handy his boxes of 12 tablets cost but a few conts-Larger packages. Appirts to the trade mark of Bayer Manufacture of Moneacetics cider

Mrs. SELCHERT'S DAUGHTER

Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Horicon, Wis.—"My young daughter had been troubled for several months with backache and a bad feel in g in her stomach. She did not want to eat anything, while before she was so hungry she could hardlywait for her meals. The doctors gave her medicine but it did not help her. One day I was reading a little book of yours and it reminded me that when I was a young girl I took several bottles of Lydia E. Pinkham's Vegetable Compound. So she went to the drug store and got a bottle, and after taking the second one she could eat and has not had backache since. In all she took six bettles of it. She goes to school and on Saturdays helps with the housework. She is a normal, healthy girl now and we recommend your medicine. You have my permission to publish this letter as a testimonial for the Vegetable Compound."—Mrs. Frank Selchert, 150 Larabee St., Horicon Wisconsin.

Mothers all over the country have found Lydia E. Pinkham's Vegetable Compound to be a most reliable remedy for such conditions.

young Brant for a time did much signary work among the Indians and his influence seemed all for the good. He fought gallantly on the side of the English codonists in the French and Indian wars. was later secretary of the Indian super-intendent, and in 1776 he went to Eng-land on a diplomatic errand. In London he received a great goal of attention and was accorded almost royal honors.

This reception abroad no doubt turned the Indian head, for when the Revolution started the English plunned the stir up started the English planned the stir up the murderour 'roquois against the patriota. Sir Wam Johnson opposed this scheme and Brant turned upon his benefactor. But Johnson died at the very start of the Revolution, and his sons, sided by Brant, persuaded the Iroquois to take the warpath against the colonists. In consideration of securing his aid. Brant was made a colonel by the English, and he led his throcious braves up and down the Mohawk Valley in a series of atrocious massacres in which neither

of atroctous massacres in which neither women nor children were spared. I was Brant, who commanded the In-dians at the fumous battle of Oriskany, on August 6, 1779, where gailant Gen-eral Herkimer was slain, and where Brant's craftiness lured the partiot mi-litin into a deathtrap. The horrors of he Wyoming massacres in Pennsylvania, have been aid to the dor of Brant wheth-

Stories That Recall Others

Little Virginia adores her Courin Kate out as she is only four, and has a limited vocabulary, as well as an original one, she calls her "Counin Cake." One day a friend insisted on her repeating the name several times, until Virginia realized something was not just right, whereupon she announced, "Her name is Cake, but we don't eat her, 'cause her like we.' Overheard at the Movies.

His wife had a severe headache, and said he would take their small daughter to the movies, and for her to retire early.

It was all one to him, as he had not consulted any program, and they entered the first theatre in their pathway, an un sex problem plays, the principal charac-

crounds for divorce because of incompat a litter of laughter among the audience near her by saying in a shrill little treble "She down't seem to like married life,

dees she, papa?" The play proceeded and after an ap-parent violent outburst of temper on the part of the feminine star, the little giri's voice again rent the air with He did not wait to see or hear more

but hastily left while the lights were subdued, and the next time he will select

The court of chancery is the highest court of judicature in England next to parliament and is of very ancient origin. It is called a court of equity because it was instituted for the purpose of proceeding by the rule of equity and conscience in moderating equity and conscience in moderating the rigor of the common law.

Dr. Howard always recommended

## Oxidaze for Coughs Colds, Br. Asthma

Lee & Osgood Co. can supply you

## Have you paid your body to-day. for the work it did yesterday?

The fact that the body must be paid for the work it does, is too often over-looked. It is important to remember that every day's activities consume a large amount of vital energy. This vital energy must be replaced-or paid back-otherwise you are living, day by day, upon a decreasing vitality. In other words, you are using up your vital energy quicker than your body can replace it. No one can continue to do this without getting weak, anaemic, nervous or run-down.

Thousands of men and women are Weak, Anaemic, Nervous, Depressed and Rundown largely because they have failed to pay the body for the work it does.

Women who should be healthy, rosy-cheeked, bright-syed and vivacious—get week, irritable, pale and nervous.

Men who should be strong, alert, rigora-ons and efficient—get nervous, brain-weary and run-down.

How to restore your vital energy enrich your blood - strengthen your nerves - and promote vigor and vitality

there is a real shortage in the body of power. These elements are, particularly, Iron, Calcium, Potussium, Sedium and Phosphorus. The shortage of these elements in the body is due to the fact that they have been used up in the production of vital energy and have not been replaced. But you can rapidly replace these ele-

In almost every case of weakness, anse-mia, nervousness and run-down vitality Thus Wincarnis enables you to pay your body for the work it does by restoring several mineral elements which are ab-solutely essential to the creation of vital to create vital energy—to make the blood to create vital energy—to make the blood rich and red—to strengthen the nervee— and to promote strength, vigor and endurance.

It is the failure to keep the body supplied with sufficient Iron, Calcium, Potassis Sodium and Phosphorus that largely acments by taking Wincernia. Because thousands of weak, ansemic, nervous and Wincernia contains all of them in ap-

Choose the right way to health

Use great care in your choice. Remember this important fact:-when the body requires a variety of mineral elements—it must have all of them. No amount of any single one will do. For instance, iron is excellent for making blood red. But no amount of iron alone will be suffident when the body requires Iron, and

Get well-but get well in a logical way. Phosphorus, as it does in the majority of cases of weakness, impoverished blood, nervousness and ron - down vitality. Wincarnis contains all of these, because it is prepared sepecially for weak, anaemic nervous and run-down men and women. Over 10,000 physicians have recommended Wincarnia. Your druggist has your Celcium and Potassium and Sodium and bottle ready for you. Try just one bottle.
